

STARTING YOUR CAREER AT KURARAY

DIRECT ENTRANTS

You can join us immediately after finishing your degree course in chemistry, engineering, economics/business administration or another relevant field and play an active role in shaping the success of Kuraray as well as your own personal career. As a new member of staff you have excellent prospects: from day one, you will be assigned challenging tasks and have a chance to contribute your own ideas. And naturally, you will be given the necessary responsibility.

STARTING AS A GRADUATE TRAINEE

Our graduate trainee programs are an excellent basis for a successful start to your career. You will get an insight into our core areas of business, along with the varied processes and structures of our business units. That includes active involvement in demanding projects and opportunities to build up your own network.

»As a trainee at Kuraray, I really value the international, interdisciplinary environment, the unique and diverse product range, and working with colleagues from many different fields.«

Anna F., Trainee BU Clarino

kuraray

Kuraray was founded in 1926. Today it is a fast-growing global speciality chemicals group headquartered in Tokyo, Japan. We are one of the largest suppliers of polymers and synthetic microfibres and an international leader in the development and use of innovative high-performance materials.

KEY PRODUCTS:

- Polyvinyl alcohol (KURARAY POVAL™)
- Polyvinyl butyral (Mowital®/ Pioloform®)
- Films for laminated safety glass in vehicles and buildings (e.g. Trosifol®)
- Thermoplastic elastomers (e.g. SEPTON™)
- Chemical specialities
- Carbon Materials
- Synthetic fibres (e.g. Vectran®)
- Manmade leather (e.g. Clarino™)
- Dental products (e.g. CLEARFIL™)

Kuraray currently has around 10,000 employees worldwide, including about 1,000 in Europe. Our employees make the company what it is. That is very important to us and we are convinced that we can only move forward as a company if our employees are able to develop their potential.

Ferhat U., chemical production technician

DIRECT ENTRANTS/ GRADUATE TRAINEES

As a leading speciality chemicals company, we offer a wide range of development prospects for university graduates.

ENGINEERS

Engineering graduates work in interdisciplinary teams to find solutions for the challenges of tomorrow's global world.

We are looking for engineers with a specialisation in e.g.:

- Chemical technology
- Process technology
- Plastics technology
- Mechanical engineering
- Electrical and electronics engineering

CHEMISTS

We could not be a global technology leader without the passion and creativity of our chemists. Join our international team and find the right path for you - as a project manager, specialist or a member of our management team. We also provide opportunities for development.

ECONOMISTS/BUSINESS ADMINISTRATORS

We need qualified economists/business administrators for our finance and controlling departments, HR, logistics, and sales and marketing. We provide full support for your career plans - whether you aspire to a career as a specialist or in management.

»With the active support of my colleagues, I was able to take on responsible tasks from the start. At Kuraray, every employee counts - as a new graduate, I received a great deal of respect from day one!«

Johanna G., Process Engineer Poval
